22.23

<Code> FOR
[CHANGE]
Let code lead the change

CORE TEAM REPORT

[CODE FOR CHANGE]

Prepared by: Core Team
Code for Change

Executive Summary

Code for Change" is marching towards its vision of being Nepal's largest platform for the student's pursuing technology, and this tenure 22.23 was dreamt of no different. Kicking off the tenure with 47 executives, 300 CR and members from 6 different cities (Kathmandu, Pokhara, Butwal, and Dang) and we expanded to 2 local bodies with around 50 members.

Code for Change conducted the Codefest 2023 in the timeline of October, reaching around 5000+ students from 7 different provinces.

This tenure was more focused on strategic planning from the side of Core Team, and the Executive Bodies were given the full power to conduct and run their events as per their potential.

Events and Activities

Recruitment

Expansion of CFC

CAN Info-Tech Talk session

PL Meetup

Codefest 2023

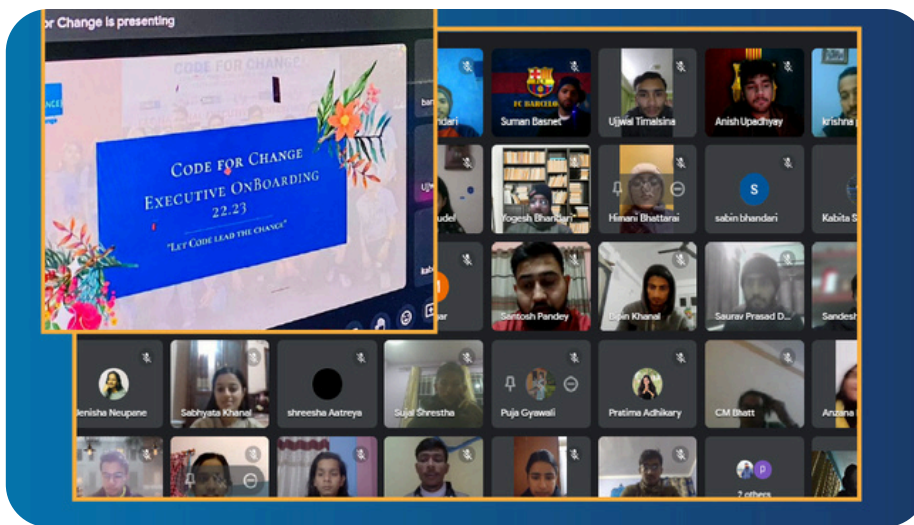

NEC 22.23

EVENT ANALYSIS

CODEFEST 2023

Codefest 2023, organized by Code for Change, was the first and the biggest Hackathon in Nepal, which intended to build a technological solution for any of the selected 7 SDGs viz. SDG 3,4,5,9,11,13, and 16, by the students pursuing bachelors in technology in Nepal.

- To boost inspiration, innovation, creativity, and productivity among the tech students of Nepal.
- To develop technological solutions for the problems related to SDGs.
- To promote creativity, teamwork, and coding culture.
- To provide networking as well as exposure opportunity to the tech students from all around the nation.

CONCLUSION

Code for Change completed the tenure 22.23 with several ups and downs. We were unable to meet the targeted events and milestones.

However, the major highlight for this tenure has to be the Nepal's largest Hackathon: Codefest 2023. This event helped us to increase our reach, PR and trust. The tenure was unique from other ones, as we were able to expand to two new regions.
