[CHANGE]

Let code lead the change

CORE TEAM REPORT

[CODE FOR CHANGE]

Prepared by: Core Team
Code for Change

Executive Summary

Code for Change" is marching towards its vision of being Nepal's largest platform for the student's pursuing technology, and this tenure 23.24 was dreamt of no different. Kicking off the tenure with **77** executives from **10** different cities (Kathmandu, Pokhara, Butwal, Dang, Itahari, Dharan, Birgunj, Surkhet, Dhangadi, Mahendranagar) and we expanded to 2 local bodies (Koshi and Surkhet) with around 25 members.

Code for Change conducted the **Codefest 2024** in the timeline of Sept to Dec, reaching around 5000+ students from 7 different provinces.

Also, **Tech Conclave 2024** at Rupandehi was the key highlight of the tenure (Feb), along with **Career Kura** event in May. We co-organized the event **Career Conclave** organized by Prasikhsan.

This tenure was more focused on **branding and reaching to mass audiences along with tie ups with the government** from the side of Core Team, and the Executive Bodies were given the full power to conduct and run their events as per their potential.

Events and Activities

Recruitment

Expansion of CFC

Tech Conclave

PL Meetup

Career Kura

Codefest 2024

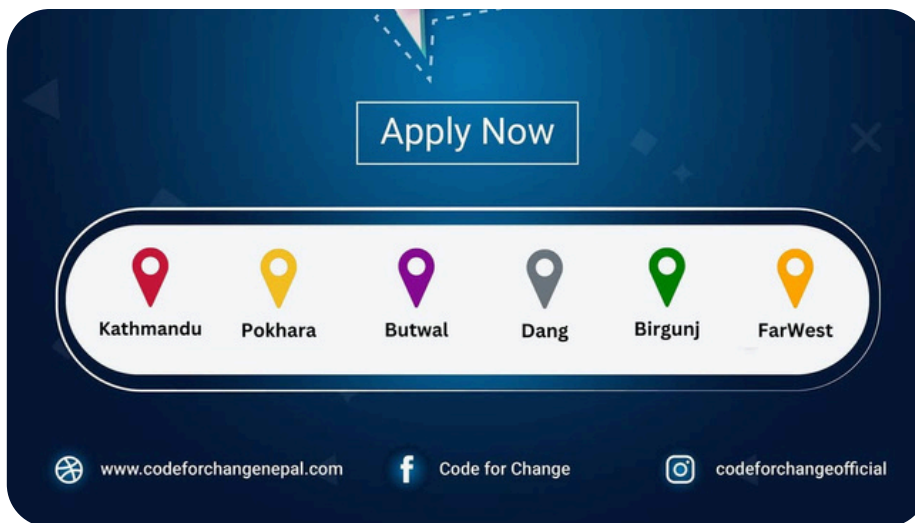

NEC 22.23

Rural Municipality Project: Could not execute due to time constraint.

EVENT ANALYSIS

First time Core team visited all EBs and LBs

EVENT ANALYSIS

CODEFEST 2024

Codefest 2024, organized by Code for Change, was the first and the biggest Hackathon in Nepal, which intended to build a technological solution for any of the selected 7 SDGs viz. SDG 3,4,5,9,11,13, and 16, by the students pursuing bachelors in technology in Nepal.

- To boost inspiration, innovation, creativity, and productivity among the tech students of Nepal.
- To develop technological solutions for the problems related to SDGs.
- To promote creativity, teamwork, and coding culture.
- To provide networking as well as exposure opportunity to the tech students from all around the nation.
- **To provide mentorship and financial reward of high quality.**

Key Highlights

- Probably the largest prize pool for hackathons in Nepal.
- Conducted physically in all Ideathon organising locations.
- Tried something new in terms of corporate collaborations and musical closings.

Next target

- Go to **South Asia level competition** in the **Codefest 2025**.
- Bring international sponsorships and fundings.

CONCLUSION

Code for Change completed the tenure 23.24 with several ups and downs. We were able to meet the targeted events and milestones.

However, the major highlight for this tenure has to be the Nepal's largest Hackathon: Codefest 2024, TechConclave 2024 and Career Kura. This event helped us to increase our reach, PR and trust. The tenure was unique from other ones, as we were able to expand to two new regions.
